PhishGuard Installation Instructions

In Google Chrome:

1. Open Google Chrome.
2. Go to the PhishGuard listing on the Chrome Web Store (your Get PhishGuard button).
3. Click "Add to Chrome".
4. Click "Add extension" in the pop-up box.
5. Click the puzzle-piece icon at the top-right of Chrome, then click the pin next to PhishGuard so its shield stays visible.

In Microsoft Edge:

1. Open Microsoft Edge.
2. Type edge://extensions in the address bar and press Enter.
3. At the bottom-left, turn on "Allow extensions from other stores", then click "Allow" to confirm.
4. Go to the PhishGuard listing on the Chrome Web Store (your Get PhishGuard button).
5. Click "Get", then click "Add extension" in the pop-up box.
6. Click the puzzle-piece icon at the top-right of Edge, then show PhishGuard in the toolbar so its shield stays visible.
7. When Chrome asks, choose 'Always on all sites' — PhishGuard needs to scan links on every page.
